PROFESSIONAL SUMMARY

Innovative Product Manager with 6+ years of experience driving digital transformation and leading cross-functional teams to deliver user-centric solutions. Proven expertise in agile methodologies, data-driven decision making, and scaling products from concept to market success. Passionate about emerging technologies and creating exceptional user experiences.

PROFESSIONAL EXPERIENCE

Senior Product Manager | CloudSync Technologies

Dec 2021 - Present • Seattle, WA

- Lead product strategy and roadmap for enterprise SaaS platform serving 1M+ users, resulting in 45% increase in user engagement and 30% revenue growth year-over-year.
- Collaborate with engineering, design, and marketing teams to deliver 15+ major feature releases using agile development practices, consistently meeting sprint goals and delivery timelines.
- Conduct comprehensive user research and data analysis using tools like Mixpanel and Amplitude, identifying key insights that informed product decisions and improved user retention by 25%.
- Manage product backlog and prioritize features based on business impact, technical feasibility, and user feedback, ensuring optimal resource allocation and maximum value delivery.

Product Manager | InnovateHub Solutions

Feb 2020 - Dec 2021 • Portland, OR

- Owned end-to-end product lifecycle for B2B marketplace platform, from ideation through launch and optimization, managing a product generating $2M+ annual recurring revenue.
- Collaborated with UX/UI designers to create intuitive user experiences based on extensive user testing and feedback sessions, resulting in 40% improvement in user onboarding completion rates.
- Implemented data-driven product development processes using A/B testing frameworks, measuring feature performance and user behavior to inform iterative improvements and product evolution.
- Worked closely with sales and customer success teams to gather market insights and customer feedback, translating business requirements into actionable product specifications and development priorities.
- Led go-to-market strategy for 3 major product launches, coordinating with marketing, sales, and support teams to ensure successful market entry and customer adoption.

Associate Product Manager | TechStart Ventures

May 2018 - Feb 2020 • San Francisco, CA

- Supported product development initiatives for fintech startup, working on mobile payment solutions and user acquisition strategies for consumer-facing applications.
- Conducted competitive analysis and market research to identify product opportunities and potential feature enhancements, contributing to strategic planning and product positioning decisions.
- Collaborated with engineering teams to define technical requirements and acceptance criteria for new features, ensuring clear communication and alignment between business objectives and technical implementation.
- Created detailed product documentation including user stories, wireframes, and functional specifications, facilitating smooth handoffs between product, design, and engineering teams.
- Participated in customer interviews and usability testing sessions to gather user feedback and validate product assumptions, contributing to user-centered design decisions and product improvements.
